

# Castle Hill Public School

## School Song

From the hills and dales around us,  
from the outer districts too,  
We gather here to work and play  
with a will our best to do;  
It's a good school with a proud name  
and we're glad to play our part,  
To make our school a place of joy  
so we sing with all our heart.

We're the boys and girls from old Castle Hill,  
the school that will lead them all,  
When it comes to a test we will do our best  
to answer every call,  
We will always be strong, choose right, not wrong,  
be loyal to our country and crown  
Both now and in all times before us  
when the Southern Cross shines down.
